

PIZZA SALES DASHBOARD

By : Divyashree k

PROBLEM STATEMENT

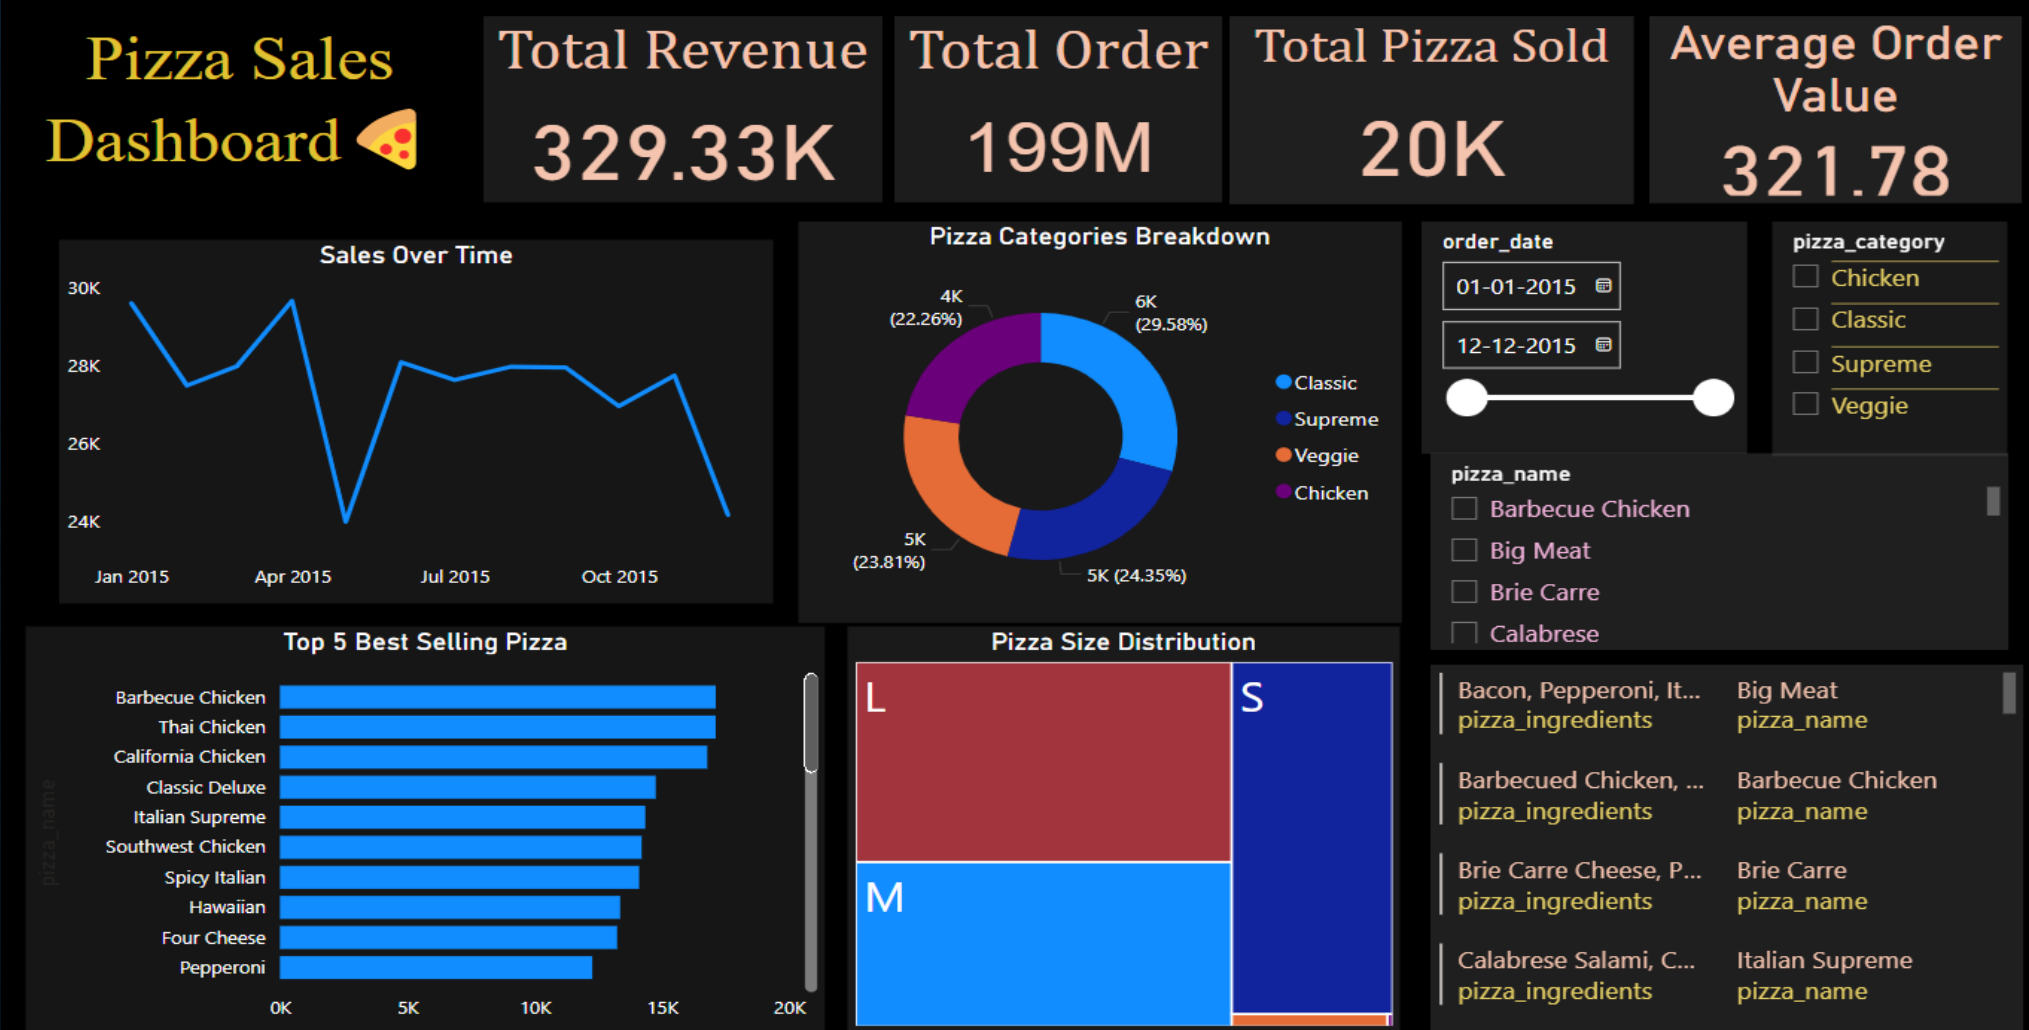

- The goal of this Power BI Dashboard Project is to analyze the pizza sales of a company using the provided data.
- To create a visually appealing dashboard that provides an overview of the company's sales metrics enabling stakeholders to make informed business decisions.

SECTIONS IN THE REPORT

Report has Multiple Section's from where you can manage the Data, Like :

- Report Data can be sliced by pizza category , date, pizza name to show Particular Data.
- It has cards showing Total revenue , order, pizza sales , average order value.
- It has a Donut Chart with showing pizza categories breakdown.
- It has line chart showing sales over time.
- At last clustered bar chart showing Top 5 best selling price .

OVERVIEW OF DASHBOARD

THANK YOU
